Opening and Inspecting the Carton
Verify that the Deep Discovery Analyzer carton contains the following items:

1. Deep Discovery Analyzer appliance
2. Rack rails
3. Rack rails
4. Power Cords
5. USB keyboard
6. USB mouse
7. Monitor and VGA cable
8. Activation Code
9. List of worldwide offices and phone numbers
10. Management Port eth0
11. Serial connector
12. Custom port eth3**
13. Custom port eth2**
14. Management port eth0*
15. Custom port eth5**
16. Custom port eth2*
17. Rack rails
18. Power supply connectors

Examining the Deep Discovery Analyzer Appliance

1. Connecting the keyboard and mouse to the back of the appliance.
2. Connecting the Ethernet cables to the custom and management ports.
3. Powering on the appliance.

Performing Initial Configuration
1. On the preconfiguration console login screen, type the following default login credentials:
   - User name: admin
   - Password: Admin1234!
   - Note: The��lock password characters do not appear on the screen.
2. Select Configure appliance IP address and press Enter.
3. Specify the following network addresses:
   - IPv4 address: Must not conflict with the Virtual Analyzer addresses and custom network address
   - IPv4 gateway: Must be in the same subnet as the IP address
   - IPv4 DNS server
4. Press Tab to navigate to Save, and then press Enter.
5. For additional configuration procedures, see the Getting Started chapter in the Administrator’s Guide. Download the document at:

Deployment Checklist

Accessing the Management Console
1. Using a supported web browser, open the management console at:

   - Note: Set the Internet Security level to Medium and enable ActiveX Binary and Script Behaviors.
   - Use the IP address that you specified during the initial configuration.
2. On the login screen, type the following default credentials:
   - User name: admin
   - Password: Admin1234!
   - Click Log On.

Contact Information

2. List of worldwide offices and phone numbers:

Setting Up the Hardware
1. Mount the appliance in a standard 19-inch 4-post rack, or on a free-standing object, such as a sturdy desktop.
   - Note: When mounting the appliance, leave at least two inches of clearance on all sides for proper ventilation and cooling.
2. Connect the appliance to the power source.
3. Connect the monitor to the VGA port of the appliance.
