Deep Discovery Inspector 4100 Quick Start Card

Deep Discovery Inspector is a third-generation threat management solution that delivers advanced persistent threat (APT) and targeted attack visibility, insight, and control. Deep Discovery Inspector provides IT administrators with critical security information, alerts, and reports.

1. **Opening and Inspecting the Carton**
   - Verify that the Deep Discovery Inspector carton contains the following items:
     1. Rack rails
     2. Document and DVD
     3. Power cords
     4. Deep Discovery Inspector appliance

2. **Examining the Deep Discovery Inspector Appliance**
   - Front Panel
   - Back Panel
   - Recommended Network Environment
     - Power cord
     - Keyboard
     - Mouse
     - RS-232 serial connector
     - Management port
     - VGA port
     - USB port
     - LCD menu buttons
     - Display power supply

3. **Deployment Checklist**
   - Required Components:
     - Activation Code
     - Monitor and VGA cable
     - USB keyboard
     - USB mouse
     - Ethernet cables
   - Note: The recommended network setup is a single dedicated network for optimal performance.

4. **Setting Up the Hardware**
   1. Mount the Deep Discovery Inspector appliance in a standard 19-inch 4-post rack, or on a free-standing object, such as a sturdy desk.
   2. Connect the appliance to a power source.
   3. Connect the monitor to the VGA port at the back of the appliance.
   4. Connect the keyboard and mouse to the USB ports at the back of the appliance.
   5. Connect the management port to your network.
   6. Power on the appliance.

5. **Performing Initial Configuration: Preconfiguration Console**
   - Perform the initial preconfiguration from the Preconfiguration Console with any of the following:
     - VGA port
     - Serial port
   - For details on how to access the Preconfiguration Console, see the Preconfiguration chapter in the Installation and Deployment Guide.
   1. On the Preconfiguration Console login screen, type the following default login credentials:
     - User name: admin
     - Password: admin

6. **Performing Initial Configuration: Management Console**
   1. Using a supported web browser, open the management console at: https://<Deep Discovery Inspector IP Address>
   - Note: Set the Internal Security level to Medium. Enable ActiveX Library.
   - Use the IP address that you specified during the initial configuration.
   2. Log in to the system, type the following default credentials:
     - User name: admin
     - Password: admin
   3. Click Log On.
   4. Type a new password, and then retype it to confirm.
   5. On Administration > System Settings > Time, set the system time.
