

TippingPoint™

## SMS Open Source Information

The TippingPoint license for the SMS was included in your SMS shipment. To request additional copies of the license, contact TippingPoint customer service.

This product includes software licensed under the GNU General Public License and/or the GNU Lesser General Public License (such software, the "Software"). Source code for some of this Software may be obtained from the [TMC](#).

Any other Software used under this license may be obtained by sending a source code request identifying the product and model to 11305 Alterra Pkwy, Austin, TX 78758 accompanied by a check to Trend Micro Incorporated for \$20.

A copy of the GPLv2.0 license is available here: [GPLv2.0 License](#). A copy of the LGPLv2.1 license is available here: [LGPLv2.1 License](#).

This product includes software licensed under an open source software license other than the GNU General Public License and the GNU Lesser General Public License. To the extent Trend Micro has an obligation or, in its sole discretion, chooses to make the source code for such software available under the applicable open source software license, source code for the software may be obtained by sending a source code request identifying the product and model to 11305 Alterra Pkwy, Austin, TX 78758.

The TippingPoint SMS uses open source components. Many open source license agreements require user documentation to contain notification that the open source software is included in the product. Trend Micro Incorporated acknowledges that the following open source components may be used in this product:

- This product includes software developed by the JDOM Project, <http://www.jdom.org/> Copyright (C) 2001 Brett McLaughlin & Jason Hunter. All rights reserved.
